

Lining - Fold the 14"x11 $\frac{1}{2}$ " lining fabric and sew the 11 $\frac{1}{2}$ " side leaving a 2" gap for turning about midway. Fold that tube with seam in middle like the outside of the bag. Sew bottom and make boxed corners same as before.

With right sides together and matching up seams put outer bag inside lining bag. Sew around top. Pull outer bag through side seam hole in the lining. Sew the hole in the lining by hand or machine. Press and pin top seam and topstitch 1/8" from top. For draw string opening, measure down about 2 $\frac{1}{2}$ " from top and draw a line around the bag and then stitch on this line. Draw another line $\frac{1}{2}$ " below the first line and stitch that line.

Pull the drawstring through the opening and put both ends through pony bead. Knot the drawstring.
